

ADDENDUM NUMBER 2

TO: All Bid Package Holders

FROM: Pearland Economic Development Corporation

RE: Pearland – Entryway & Landscape Maintenance in Various Rights-Of-Way and Corridor Medians
Bid No. 2021-01

DATE: 06.10.2021

ADDENDUM INSTRUCTIONS:

Acknowledge receipt of the Addendum by inserting its number into the Bid Form. This addendum forms a part of the Contract Documents.

Item No. 1 **Clarification – Bid Due Date is June 14, 2021 at 11:00 a.m.**

A typo from the pre-bid conference presentation was questioned regarding bid opening time on the Important Dates slide. All other documents advertised the correct bid opening date of June 14, 2021 at 11:00 a.m. The Pre-bid presentation slide opening date was incorrect, and has subsequently been corrected in the presentation available online in Addendum 1 at www.pearlandedc.com/LandscapeRFP.

Item No. 2 **Why is E-Verify Required?**

E-Verify is required for new hires to your firm that become employed or contracted while under contract with a public entity. It is not required to work for other private firms, or to apply retroactively for any existing or past employees.

All public entities and their contractors in Texas, have been required by state law since 2015 to use E-Verify in order to verify a new hire's eligibility to work in the United States, and no federal contracts or subcontracts may be performed without it. The intent is to prevent taxpayer dollars from being used to pay employees or contractors that are not legally working in the United States via work visa, green cards and other legal means.

PEDC is not considered a political subdivision of the state by law; however, we still require it as a tax-funded, tax-exempt organization.

Item No. 3 **We see a lot of blueprints and were curious if they are existing or new construction?**

The plans within the bid documents represent what has previously been constructed that is to be maintained under this contract.
